

**Join us for our Fish Harvest Open House
Friday September 25
8:30 am to 11 am**

*This is your chance to watch us harvest fish
from the ponds for stocking in lakes*

- take a tour of the hatchery

- talk to DNR staff -- bring your questions
- enter a drawing to win prizes
- free coffee
- goody bags for kids

The Hatchery Visitor Center is located west of Kwik Trip on the south side of Hwy 70. Park in the upper lot and walk across the dam.

Questions? Call the Hatchery Visitor Center: **715.635.4147**

Lt Gov. Rebecca Kleefisch and her daughters Violet and Ella visited the Gov. Tommy Thompson Hatchery in early August. The girls had a great time touring the Hatchery and spending some time outside near the ponds. Their interest in animals, outdoors and environment makes us wonder if we had future fish biologists visiting.

One of our projects

Recycling monofilament line. . . recycling containers are made of pvc pipe and placed at boat landings convenient to anglers who can easily recycle their line.

We welcome lake associations, lake districts and anglers to join us in keeping fishing line out of our water bodies. The Hatchery has a deal with a fishing line manufacturer to take the used line and recycle it.

Join FISH

Whether you're a seasoned angler with many years' fishing experience or a kid with a healthy quantity of curiosity, FISH might be for you. Benefits of membership include an opportunity to learn about Wisconsin's fishery, angling instruction, a chance to participate in FISH activities and socializing with like-minded people.
