

We're thrilled to announce that you can now adopt a musky that's released from the Spooner Hatchery into the Chippewa Flowage. During the years following the release, the Dept. of Natural Resources (DNR) fish management teams will periodically check the Chippewa Flowage fish populations. They'll identify the muskies by scanning their PIT tags*, record their vitals and release the fish. These results will be posted to our website annually every February when you can check to see if your fish was recaptured. We'll notify you when the results are posted.

Sign up below to receive your Adoption Certificate suitable for framing. You can also sign up on our website AdoptAMusky.com

Please be sure your information is legible so we don't get it wrong. We suggest a \$5.00 per musky, but you can choose any amount to donate. Make checks payable to FISH.

Today's Date: _____

First Name: _____

Last Name: _____

Address: _____

City: _____

State: _____

Zip: _____

Email: _____

Phone: _____

Donation Amount: _____

Donation Only (no PIT Tag #) _____

Name(s) of Adopter: _____

Nickname(s) of Adopted Fish: _____

*PIT Tags are tiny electronic elements that are inserted into the fish when they leave the hatchery.

A portion of your donation goes to the Fish Hatchery in Spooner for growing future fish. Your contribution is tax deductible; tax ID 47-1250605
